Research Interests

I study how to influence human or artificial agents' behavior for desired outcomes. In particular, I develop algorithms and machines that induce cooperation among agents with diverse and perhaps conflicting interests to achieve societal objectives. In doing so, I push the boundaries at the intersection of artificial intelligence, human-machine interaction, interactive machine learning, and algorithmic economics. I'm passionate about implementable, reliable and automated mechanism/information/institution design, especially one that scales in dynamic environments.

Education

University of California, Irvine

Ph.D in Information and Computer Science

Irvine, CA

Sept.2014 - June 2019

- Advisor: Cristina Lopes
- Topic: Automated incentive design.

Masdar Institute of Science and Technology

M.S. in Computing and Information Science

Abu Dhabi, UAE

Sept.2011 - June 2013

- Advisor: Jacob Crandall
- Topic: Regulating autonomous machine societies.

Northwestern Polytechnical University

B.E. in Software Engineering

Xi'an, China

Sept.2005 - July 2009

- Topic: Learning for Spam filter systems.

Professional Experience

University of California, Irvine

Graduate Student Researcher

Irvine, CA

Sept. 2014 - Present

- Developed the Expand and Target algorithm and an online mechanism for managing AMoD systems.

University of California, Irvine

TA/Reader

Irvine, CA

Sept. 2014 - June 2015

- Assisted in teaching the following undergraduate courses (INF43, INF124) and graduate courses (INF225, INF295).

Masdar Institute of Science and Technology

Research Engineer

Abu Dhabi, UAE

Aug. 2013 - Aug. 2014

- Developed machine learning algorithms for detection and diagnosis of heating, ventilation and air conditioning systems.

Masdar Institute of Science and Technology

Research Assistant

Abu Dhabi, UAE

Sept. 2011 - May 2013

- Worked on the project *Managing real-time interventions in smart buildings*.

Professional Service

The Sixth International Conference on Intelligent Systems and Applications, Program Committee	2017
The ACM CHI Conference on Human Factors in Computing Systems, Reviewer	2017
The 12th ACM/IEEE International Conference on Human-Robot Interaction, Reviewer	2017
The 11th ACM/IEEE International Conference on Human-Robot Interaction, Reviewer	2016
International Journal of Electrical Power & Energy Systems, Reviewer	2013

Skills

Languages: Python, Java, C/C++, JavaScript
Others: Qt, OpenGL, MySQL

Honors and Awards

Chair's Award, Department of Informatics, University of California, Irvine	2014
Student Travel Grant (US\$2,500), Masdar Institute of Science and Technology	2013
Fellowship, Masdar Institute of Science and Technology	2011-2013
Best Bachelor Thesis Award, Northwestern Polytechnical University	2009
National Endeavor Scholarship, Ministry of Education of China	2008
Academic Excellence Scholarship, Northwestern Polytechnical University	2006-2008
